

Ryan Andrew Skog

Sacramento, CA || 608-790-2616 || ryan.skog@outlook.com

LinkedIn: [linkedin.com/in/ryan-skog/](https://www.linkedin.com/in/ryan-skog/) || Github: github.com/raskog1 || Portfolio: ryanskog.com

Summary: Full Stack Web Developer with a background in art, technology, and design. Merging the world of logic and coding with an artistic eye proves to not only be rewarding but creates the desire to find elegant solutions to common problems. Passionate, focused, and unflappable.

Technical Skills:

Front End Aptitude: HTML5, CSS3, Bootstrap, JavaScript, jQuery, React, GraphQL

Back End Aptitude: Node.js, Express, MySQL/Sequelize, MongoDB/Mongoose. REST API

Projects:

Learning Portal || github.com/raskog1/learning-portal || <https://code-learning-portal.herokuapp.com/>

- Learning Portal allows a user to test their coding skills with multiple choice assessments while interacting with a coding community via message boards.
- Completely solo built in a two-week span, harnessing Material UI for many design choices.
- Built with MERN stack, MongoDB Atlas, and JSON Web Tokens for authentication.

The Threadery || github.com/raskog1/The-Threadery || <https://the-threadery.herokuapp.com/>

- The Threadery is an inventory management application built for embroiderers, cross-stitchers, and knitters. Maintain a dynamic inventory to reference anywhere and build shopping lists.
- Designed with Material UI with a mobile-only approach in mind. The Threadery is built to cater to remote inventory and shopping experiences.
- Built with MERN stack, MongoDB Atlas, JSON Web Tokens, and Material UI.

Work Experience:

Primary Teaching Assistant, Senior Tutor

10/20-Present

Trilogy Education Services

- Provide support to instructor via managing instructional material repositories, pacing of activities, and answering student questions during demonstrations.
- Assist students throughout the course of bootcamp in Zoom classroom and Slack channels to ensure they stay on track and engaged.
- Conduct one-on-one sessions with students to review concepts and material, research technologies, as well as troubleshoot and debug.

Director of Services

11/13-11/20

Sheraton Grand Hotel, Sacramento, California – Marriott International

- Responsible for the hiring, scheduling, and productivity of over sixty employees in accordance with Union regulations as well as hotel needs and budget.
- Maintained Starwood standards on training, inspecting, cleaning procedures, building culture, and safety measures.

Education: UC Davis Continuing and Professional Education, Davis, California
Certificate in Full Stack Web Development – September 2020

University of Wisconsin La Crosse, La Crosse, Wisconsin

Received Bachelors of Science Degree in Art with Printmaking emphasis
